Subject: 386 BIG QRM PROBLEM
To: ham-digital@ucsd.edu

     You could also try changing the clock speed on the machine; most just have
an CTRL-ALT-+ and CTRL-ALT-- type of thing to do it. Mine does, and it also
has a jumper to make a change in speed more permanent; if you have a 50mhz
386, and you are working 50 mhz range, that won't wokr obviously 8-).
     On mine, I can just tune an indoor radio up the dial and there are really
loud harmonics (prolly not helped by the fact it isn't in a case yet 8-)
     That reminds me of the other thing; Check the case. You can get a new
one, or just make sure the expansion bay slots are all covered; those suckers
are basically fancy radio antennas straight off of the computer bus.
      Hope it helps.
     Henry Wertz

ALEX DO YOU SUPPOSE YOU COULD FIND THE FILE SOME WHERE CALLED
MYSYS.EXE VERSION 117 MAYBE MYSYS117.EXE   ITS A BBS PROGRAM AND IT IS
OUT THERE CAUSE I SEEN IT COME THRU ON THE PACKET SYSTEM. ALSO THERE
MIGHT BE ONE CALLED RLI.EXE ALSO I WOULD LIKE TO HAVE MAYBE WE COULD
UPDATE THE BBS HERE IF WE HAD ONE OR THE OTHER. I HAVE WROTE BOTH OF
THEM BUT THEY DON'T ANSWER THIER MAIL HI   SEE YOU.. OH THE NEXT
BREAKFAST IS AT THE OAKRIDGE DOWN TOWN SO I HEARD..   SEE YA GENE

PAUL :
I JUST GOT ON HERE FOR A KICK SEE YOU HAVE LEFT ME A MESSAGE ABOUT DOG
RACES HUMMM MUST HAVE BEEN COUPLE MONTHS AGO HUH! ANYWAY WHILE I'M ON
HERE I'LL SAY WE   I OR THE CLUB WHAT EVER HAVE THE PACKET BBS
RUNNING FULL OUT NOW ITS COLLECTING MEASSAGES AT THE RATE OF ABOUT 150
A DAY HI SO GET WITH IT YOU NEED A TNC !!!!! AND USE THE HT FOR A RIG
HI.. HERAMN IS GOING TO DO THAT WHEN HE COMES BACK FROM A VACATION IN
FLORIDA... WITH A SUN TAN I BET ANY WAY ALSO IF YOU READ THIS. WE
HAVE A SPECIAL MEETING UP AT THE AIRPORT THIS NEXT TUEDAY 04-05 ALL
ABOUT PACKET I'M SUPPOSED TO GIVE THEM ALL THE LATEST POOP! BUT I'M
NOT SURE I CAN HI SEE YA ONE OF THESE DAYS SOON I HOPE....   GENE..

Subject: PAL,GAL Programming software needed
To: ham-digital@ucsd.edu

I am looking for a software package like CUPL that can generate code for
PAL and GAL circuits. I have a CULP starter kit but I can't justify
spending $1500 for the full version. Is there any Shareware programs out
there?

Please respond via E-Mail. I don't read News on a regular basis.

Thanks,

Ulf

Subject: TNET-X1J
To: ham-digital@ucsd.edu

Hello Out there!
    I have just implemented the X1-J software on my backbone network and am
having some difficulty with the ACL function. Unfortunately we have some
abusers out here, and the function does not appear to work whatsoever.
If anyone has experience with this and is making it work, please advise.

Your help would be greatly appreciated. I've attempted to contact the
author, G8KBB@G8KBB.AMPR.ORG,   but nothing received back just yet.

Dan
